Moments to share

As we step into autumn and winter, embracing the moments to share become even more precious as they are the ones that linger in our memories for a long time.

In this collection we invite you to prepare for the encroaching darkness by creating daily moments to share. Whether it's getting mesmerized by a winter's tale, enjoying your neighbour's passionate baking or engaging in a heartfelt conversation about the latest romcom, there's always an opportunity to share warmth and humanity, to show that you care.

Our decoration is a blend of the old, the new and the cherished traditions unearthed from forgotten corners of our cupboards. From handcrafted ornaments to skillfully decorated napkins, every piece is carefully chosen to give your home a personal touch, transforming it into a haven where memories are made and cherished.

Sustainability is the heart of our design philosophy, from recycled materials to timeless products designed to last over generations. Every item in our assortment is made with a commitment to minimize our environmental footprint. Glass, cork, recycled cotton, rPET and steel are just a few of the materials that emphasize our dedication to create products that withstand the test of time.

As the days become shorter and the air crisp and clear, we let autumn's rich nuances fill your home with warmth, vitality and the attractive essence of our collection where every piece enlivens the season in colours from deep inviting shades of red to earthy tones inspired by nature.

Welcome to a new season with us at Sagaform - where every moment shared is a moment cherished. Join us as we celebrate the beauty of togetherness and create memories that will last a lifetime.

Sagaform

- A Swedish Original since 1996

Give away a Swedish Original

At Sagaform we care about relationships. That is why we always regard our design as a great gift to someone we love but also for ourselves. The gift should be easy to give away with the purpose to raise many smiles on the receivers' faces.

Classic Scandinavian design in combination with carefully chosen details radiating stylish simplicity characterizes what we call Swedish Originals. Functional quality products caring about the familiar and which are created to be used and appreciated in many homes by many families for a long time to come. All of them packaged in a way which is appreciated and received just as they are.

Studio Sagaform

In our studio ideas are brought to life and dreams are shaped. Here we sketch on possibilities, design future originals and bring forth products which always find their way home. We are really proud of our inhouse studio where we combine experience with engagement and loyalty to Swedish design.

Designers

We also work with Sweden's leading designers, with whom we create familiar, well-made products and gifts with Scandinavian design, always ready to be given away. Together with names like Margot Barolo, Anton Björnsing and Pascal Charmolu along with many others we are proud of our heritage. Always with a focus on Swedish Originals.

Sustainability for the future

It should be easy to make good choices, which is a key part of the development of our sustainability work. At Sagaform AB, we put great emphasis on sustainability in our processes and take responsibility for how our operations affect people and the environment. Of course, we hope that you are satisfied with your purchased products but also with us as a company.

As part of the New Wave Group, we pursue active sustainability work towards a vision of sustainable growth where business solutions are not only financially favorable but also sustainable from a social and environmental perspective. What makes the biggest difference is how we conduct our everyday business. That is why we are working to integrate sustainability issues into our core business. The work includes, for example, improved working conditions in production countries, progressive chemical work, and streamlining transport and logistics.

Our common main goal with the sustainability work is to create products with the longest life possible, to minimize the product's negative impact on people and the environment during its life cycle. In our work, we take into account all three dimensions of sustainability - social, environmental, and economic.

One of our strengths is that we have our own CSR staff in place in the production countries who work full time on these issues. The work includes, for example, improved working conditions, progressive chemical work, and streamlining transport and logistics. Through internal controls in combination with independent reviews, we make sure that our products are produced under good social conditions and do not contain any harmful chemicals. Do you want to know more? Please browse our Sustainability folder which you will find on our website under Sustainability. There is an interesting read about all our CSR work through the New Wave Group.

You can also read more about how we work with CSR and sustainability on the parent company's website www.nwg.se. There we have gathered all information about important activities, collaborations, and goals for the future.

Decoration

To us decoration should be classic, have a great function and always be appreciated to receive or give away. Here you will find products which both take up space and harmonize with the Scandinavian design.

Elise pot with plate

Elise pot with plate does everything right. It combines the design of colour, shape and details with practical additions like drainage holes and a plate which reaches higher up. Elise pot has a soft rounded shape with simple straight lines and is made of classic stoneware. The pot is decorated with an emblem and Sagaform's characteristic stripes. Elise has been glazed in four beautiful close to nature colours. A pot which will be a warm addition to every home. Designed by Studio Sagaform. Available in three sizes. Packed in a beautiful Sagaform box. Dishwasher safe.

Signe & Siri

Both Signe and Siri are something of a collector's item, the more the merrier. With a classic shape and pleasant weight, it feels both exclusive and innovative. The candle holder Siri has a classic design which finds its right place in most homes. The base of the candle holder has the same organic flower shape as Signe and makes us think of nature. Siri is available in two heights which matches nicely together. The material is stainless steel with a nicely polished surface. Looks fine on its own or in a group. Great looking on the dinner table and it is the perfect gift to receive or give away. Designed by Studio Sagaform. Packed in a beautiful Sagaform box. Do not machine wash.

Anton Björnsing

Anton Björnsing has his background from the distinguished Carl Malmsten School in Stockholm where he studied furniture design focusing on wood. Before that he explored design and wooden handicraft at the Steneby School. The austere Scandinavian design language runs like a thread through Anton Björnsing's work. He works mostly with oak in combination with stoneware and glass, which gives the products a further dimension of exciting material contrasts.

Nature cork serie

Nature steps forward in new forms and new materials. Together with its classics, the series now creates more opportunities to combine with parts within and outside the own range. Dark brown cork details give a natural feel and create a stylish effect in different ways. That dark cork is here to stay is no longer a question. We love everything about this material. Designed by Studio Sagaform. Mouth-blown glass/cork. Packed in a beautiful Sagaform box. Do not machine wash.

Saga

Saga series is an important piece in our family of Swedish Originals. As the name reveals, we are extremely proud and sure of Saga being a part of our family for a long time forward. This is a classic glass series including wine glass, champagne glass, drinking glass and a carafe, all of which will take their special place in the kitchen cabinet. With its characteristic striped stem, on all of the parts, it stands out as well as blends in. Saga is perfect for the morning juice or the pancake milk, but it also has the power and strength to highlight any party dinner table in an extra festive manner. Saga can easily be mixed with what you already have and is a perfect gift and a desirable series to collect. Quite simply, a Swedish original. Designed by Studio Sagaform. Made of soda glass. Packed in a beautiful Sagaform box. Dishwasher safe.

Inka cup

With Inka cup we wanted to create a neat, large enough stackable mug in nature's many soft and colourful nuances. A mug for everyday life at home or the office. The cup has a rounded foot creating a soft silhouette in contrast to a chunky edge decorated with Sagaform's characteristic stripes. The base has practical drainage channels to avoid collecting water when it has been in the dishwasher. Made of stoneware. Designed by Studio Sagaform. Dishwasher safe.

Inka cup with ear

With the Inka cup, we aimed to create a sleek, appropriately sized, and stackable mug in a range of natural, muted colours. Perfect for everyday life and the workplace. The cup has a rounded base that provides a soft silhouette, contrasted by a sturdy rim adorned with Sagaform's characteristic stripe. It also features a practical, stylish handle for easy handling. It pairs perfectly with the Inka cup without a handle, both for easy stacking and to accommodate different preferences. The base has drainage channels to prevent water accumulation in the dishwasher. Made of New Bone China Available in base colours and exciting collection colours. Dishwasher safe. Designed by Studio Sagaform.

Coffee & More

Coffee & More is produced by Sagaform in collaboration with designer Margot Barolo. The series design flirts with the direct, playful and straight language of the 70's. The series is available in various parts, patterns and colours and is at its best when everything is mixed. But it should not be underestimated when used individually. This series has several personalities which we love and appreciate. Which one is your favourite? Made of stoneware, dishwasher safe. Packed in a beautiful Sagaform box.

Margot Barolo

Designer Margot Barolo was educated at Beckmans and also has a master's degree in ceramics from Konstfack. She has for a long time successfully worked with the Swedish art industry and during recent years also started challenging the picture of the production around this. Margot Barolo's unique design language and her love of ceramics shows in Coffee & More, the dinner service designed for Sagaform. Included in the series are stackable bowls, coffee cups, latte mugs and plates with inspiration from the 70's and its passion for ceramics with straight lines broken off by a multitude of patterns and playfulness. Her design language is tied together in peaceful nuances, high-gloss glazing and ornamented throughout in relief.

Astrid

Astrid is a series of classic kitchenware in a modern and conscious version. A series which combines function and design in the very best way. The blades of the series are made of stainless steel and the handles of beautiful, chocolate-brown wenge wood. Wenge wood is heavy, durable, shockproof and moisture resistant. Also, it's lively-looking and lovely with its decorative veining. The combination wenge wood and stainless steel is an exciting contrast between hard and soft, a classic with a tougher touch. Series Astrid is definitely a Swedish Original which never goes out of fashion. Packed in a beautiful Sagaform box. Do not machine wash.

Tradition

We care for Scandinavian traditions and the familiar feeling of experiencing them together. Under “tradition” you will find the products which create that extra spark to get in the mood for that season’s special traditions, like for example christmas holidays.

Ellen collection

Traditions, big and small, are important to us at Sagaform, which our stoneware series Ellen shows. Here you will find products for our most beloved traditions like Christmas, Easter and Midsummer, but also for the lovely everyday traditions like morning coffee in bed or the Friday fika (coffee moment). Cups, mugs, bowls and storage products in stylish design with billowing stripes in nature-inspired colours. Designed by Studio Sagaform. Packed in a beautiful Sagaform box. Dishwasher safe.

Maria

Maria candle holder takes a central place on the table at Christmas time and also in the Sagaform Swedish Originals collection. The inspiration is the pleated skirt which represents the striped base and which gives the candle holder its characteristic Sagaform feel. The plate with four candles can with advantage be decorated for varying season festivities but it is also decorative on its own.

Ella Hamam

Ella is a series of napkins, towels, tablecloths and bags adorned with Sagaform's characteristic stripes in different patterns. Ella is available in four nature-inspired colour combinations with varying striped patterns depending on the colour. Ella is created to add some beauty in the garden, on the beach as well as in your home. Ella hamam is available in three sizes and is made of thin, woven recycled cotton. The waxed tablecloth is available in one size and in a beige colour. Made of recycled cotton (70%) and polyester (30%). Designed by Studio Sagaform. Normal machine wash at 40 degrees.

Ella waxed tablecloth

Ella waxed tablecloth is classically patterned with stripes and made of recycled cotton (70%) and polyester (30%). The surface is coated which makes the tablecloth water repellent and therefore perfect to use both indoors and outdoors. The stripes as well as the nature-inspired beige tones are characteristic for Sagaform. Available in size 150x250 cm. Packaged in nice paper girdle.

Outdoor living

Nature is important to us and also how we live in it. In this category you will find everything you need to really enjoy the Scandinavian nature, whether it's in the forest, on the terrace, on the road or at sea. Functional, durable and familiar are the keywords when we have developed this category and its products.

Doris enamel

The favourite Doris unites utility with pleasure, or rather design with function. Here it is the material which provides character. Enamel is durable, doesn't weigh much and with its capacity to withstand heat up to 225 degrees from an open fire, induction or in an oven, it becomes as functional outdoors as stylish looking indoors. The design is timeless with a discreet splash pattern. A classic, multi-functional and durable series containing mug, bowl, plate and pan in two sizes. Doris is available in black, green and beige. Withstands machine washing in upper basket on low temperature. Made in Enamelled carbon steel and designed by Studio Sagaform. Don't use sharp items in the pan.

What is rPET?

rPET stands for "Recycled Polyethylene Terephthalate,". PET is a type of thermoplastic polymer used to manufacture many common products, such as plastic bottles for beverages and food packaging. rPET is simply recycled PET plastic. It is produced by recycling used PET products from the consumer stream, primarily plastic bottles. The process involves collecting plastic bottles, crushing them, and melting them down to create new plastic material. The recycled material can then be used to manufacture a variety of products, including bottles, packaging, textiles, and other plastic products. In this case, Billi.

City rPET collection

The City collection includes cooler bags in various sporty-looking styles adapted to an active life. They come in colours inspired by nature and are both stylish and functional. City is making us longing for adventures both in nature and in the city. Our black, blue and green city has outer material in rPET, a material made from recycled PET bottles. Wipe with cloth. Hand wash is recommended for City picnic blanket.

Why do we use rPET?

The use of rPET plastic in products has several advantages, in our opinion. By recycling plastic bottles and other PET materials, the need to produce new plastic is reduced. This saves energy and reduces the amount of waste. The production of rPET plastic also requires less energy and resources compared to producing new plastic. By recycling and reusing plastic materials like rPET, the concept of circular products and systems is promoted, where products and materials are reused instead of being discarded.
